```
 1    ▶ Run SamKirkland/FTP-Deploy-Action@v4.3.6
15    ----------------------------------------------------------------
16    🚀 Thanks for using ftp-deploy. Let's deploy some stuff!
17    ----------------------------------------------------------------
18    If you found this project helpful, please support it
19    by giving it a ⭐ on Github --> https://github.com/SamKirkland/FTP-Deploy-Action
20    or add a badge 🏅 to your projects readme --> https://github.com/SamKirkland/FTP-Deploy-
      Action#badge
21    Failed to connect, are you sure your server works via FTP or FTPS? Users sometimes get this error
      when the server only supports SFTP.
22
23    ----------------------------------------------------------------
24    --------------    🔥🔥🔥 an error occurred 🔥🔥🔥    --------------
25    ----------------------------------------------------------------
```

```
31
32    Error: getaddrinfo ENOTFOUND ***
33        at GetAddrInfoReqWrap.onlookupall [as oncomplete] (node:dns:120:26) {
34      errno: -3008,
35      code: 'ENOTFOUND',
36      syscall: 'getaddrinfo',
37      hostname: '***'
38    }
39    Error: Error: getaddrinfo ENOTFOUND *** (control socket)
```
